PROFESSIONAL EXPERIENCE

HIGHER DIGITAL and Freelance – Consultant, Web Development and Digital Strategy   **2016 to 2017**

EDITORIAL PROJECTS IN EDUCATION *(*Publishes *Education Week)*, Bethesda, MD   **2005 to 2015**

Chief Technology Officer, Digital Operations   2009 to 2015
Oversaw technology for national newspaper web sites, including web, mobile, and e-newsletter publishing systems, subscription and user management, monitoring, analytics, advertising, and social media. Managed software development, deployment, and 3rd-party service integrations, hosting of infrastructure, security, performance, and vendor relationships.

- Enhanced search experience and expanded scope of index by managing project to select and implement upgraded search engine technology and switching to Google Search Appliance (GSA).

- Improved pay-wall user experience and conversion rates for registrations and subscriptions by overseeing technical implementation of metered subscription model.

- Developed processes for documenting / prioritizing web technology requests and project requirements, facilitating broad stakeholder participation and staff communication.

- Enabled content publishing and access control integration between mobile and desktop web servers by directing mobile web site development and recruiting API expert to create new custom API.

- Managed 2 data system migrations, including hiring consultants, comparing options, and executing moves of physical servers and VPN to new VMs, improving performance with no loss of continuity.

- Professionalized software development processes by introducing Subversion for revision control, Jira for task tracking, and Confluence for project documentation, improving reliability and efficiency.

- Diagnosed, fixed, and documented web site performance issues by using AlertSite and Google PageSpeed tools.

EDITORIAL PROJECTS IN EDUCATION (Continued)

Executive Producer, edweek.org   2006 to 2009
Directed online content production, editorial processes, and social media strategy / policies. Managed site designs, web software development, and technology platform.

- Drove community strategy and oversaw selection and implementation of Pluck comment / messaging platform, enabling direct audience engagement with content and directed online discussions.
- Supervised adoption of Facebook, Twitter, and other social media platforms, including setting schedules and policies and collaborating with producers and reporters, increasing direct audience engagement and expanding content reach of content.
- Directed 2 redesigns, including involving stakeholders throughout organization to promote buy-in and utilizing card sorting and user testing, improving user experience and increasing layout flexibility for future enhancements.

Web Technology Manager   2005 to 2006
Developed custom software and integrated 3rd-party services into Education Week web site. Hired and oversaw contract web developers.

- Enabled paid premium content that converted online readers into paid subscribers by developing paid subscription forms and enhanced registered user access control.
